PROFILE **Software Engineer** with **4 years** of full-stack development experience, specializing in **scalable**, **high-performance** web applications. Proficient in **React**, **Vue**, **Node.js**, and skilled in **optimizing SQL** (**PostgreSQL**, **MySQL**) and **NoSQL** (**MongoDB**, **ArangoDB**) databases. Currently enhancing expertise by learning **Python** to broaden technical capabilities. Adept at delivering modular architectures, seamless integrations, and end-to-end solutions aligned with business needs.

EXPERIENCE

May 2023 — Present	Full Stack Engineer, Iguan Systems	Yerevan
--------------------	---	---------

Back-End Development

- Skilled in creating scalable, secure server-side applications with **Node.js**.
- Expertise in designing robust **RESTful APIs** and **GraphQL** endpoints, emphasizing performance and maintainability.
- Proficient in asynchronous programming and event-driven architectures for real-time systems.
- Experienced in implementing **WebSocket**-based communication for real-time features like live updates and notifications.
- Adept in authentication (**JWT**, **OAuth2**) and third-party API integration for streamlined workflows.
- Currently expanding back-end expertise by learning **Python** for building versatile and modern server-side applications.

Front-End Development

- Proficient in building responsive, dynamic UIs with **Vue.js**, **React.js**, and core **JavaScript** libraries.
- Skilled in **HTML5**, **CSS3**, and advanced layout techniques like **Flexbox** and **CSS Grid** for pixel-perfect designs.
- Experienced with UI libraries and frameworks such as **Bootstrap**, **Tailwind CSS**, and **Material UI** for efficient, accessible development.
- Adept in cross-browser compatibility, **DOM** manipulation, and state management tools (**Vuex**, **Pinia**, **Redux**, **Zustand**).
- Proficient in integrating **RESTful APIs**, **GraphQL**, and **WebSockets** for seamless client-server communication.

Databases & System Design

- Expertise in **SQL** (**MySQL**, **PostgreSQL**) and **NoSQL** (**MongoDB**, **ArangoDB**); optimized performance using indexing, query optimization, and Redis caching.
- Designed modular **APIs** and scalable systems using microservices and event-driven architecture patterns.

Collaboration & Tools

- Experienced with **Git** workflows, **CI/CD** pipelines, and maintaining high code quality through peer reviews and automated testing.

Mar 2022 — Present	Full Stack Engineer (Freelance), Upwork	Remote
--------------------	--	--------

Top-Rated Freelancer

- Successfully delivered a wide range of projects, including **websites**, **landing pages**, and **web applications**, tailored to clients' requirements and designs, earning and maintaining a **Top Rated** status on Upwork.
- Provided **technical consulting** to clients, helping them choose the most suitable tools, frameworks, and solutions for their specific needs and challenges.

- Proficient in **frontend development** using **HTML**, **CSS**, **JavaScript**, and frameworks like **React.js** and **Vue.js**, as well as **backend development** with **Node.js** and **TypeScript**, ensuring end-to-end application delivery.
- Demonstrated autonomy in decision-making, handling complex problems independently while maintaining active consultation with clients to align on requirements and provide technical insights.
- Maintained **direct and transparent communication** with clients, delivering regular updates, collecting feedback, and collaborating on code reviews to ensure high-quality outcomes.
- Built long-term client relationships by consistently exceeding expectations, fostering trust, and delivering reliable solutions on time.

Jan 2021 — May 2023

Front-End Developer, Team Telecom Armenia

Yerevan

- Creating Web Pages and Landing Pages for various complete products
- Create websites for the products of the Team group: <https://teampay.am>, <https://teamenergy.am>
- Creating and designing web pages for the internal use.

SKILLS

JavaScript	HTML & CSS
TypeScript	Git
Vue	Figma
React	SQL Databases
Docker	NoSQL databses
NodeJS	Unit Testing
Data Structures & Algorithms	

EDUCATION

Sep 2013 — May 2017

Bachelor's degree in Political Science, Russian Armenian University

Yerevan

Graduated with Honors

Sep 2017 — May 2019

Master's degree in Cultural Journalism, Russian Armenian University

LANGUAGES

English	Highly proficient	Armenian	Native speaker
Russian	Native speaker		

HOBBIES

Music, Literature, Gaming, Movies, Hiking
